Intend and allow

There is no need to worry or strive. For you are able to intend and allow.

You are so highly capable that you'd be stunned to see the full extent of what you can do. Unfortunately, most of that capability is smothered under your own doubts, fears and worries.

Fortunately, you can crowd all those negative things out of your awareness. The way to do that is with a solid, specific, deeply meaningful intention.

When each day begins, choose to focus on a clearly defined way in which you intend to make life better. Then, as the day goes along, allow yourself to make use of opportunities that arise for fulfilling that intention.

Those opportunities will most certainly be there. You don't have to strive or wish or struggle or connive.

Simply have a clear, meaningful intention, and allow yourself to fulfill it. Intend, allow, and put your amazing capabilities to their highest use.

Live true

Today, in the everyday details of life, feel your purpose. Today, as you choose how to spend your time, live your purpose.

Your life has unique meaning and the potential for much more meaning. Stay true to the real, living, authentic person you are, and fulfill that potential.

You know what feels right for you and what feels wrong. Pay attention to that feeling, and remind yourself to stick with what's right.

Enjoy and explore, learn and love, create, support and empower all that is important to you. You have meaningful work to do, and a beautiful vision to express, and today is your opportunity to do it.

Don't let yourself get too conceited or too dismayed by what others think or say about you. Do what you know is good and right, and in line with your purpose, and all will work out for the best.

Live true to your deeply felt purpose. And you will truly live well.

Shipping

India, China and Japan join hands for piracy control

India, China and Japan recently agreed for better coordination among their naval ships deployed for escort of merchant vessels in the piracy-infested Gulf of Aden, the Lok Sabha was informed on Monday. In a written reply to a question in the Lower House, Defence Minister A K Antony said, "India, China and Japan have recently agreed for better coordination among their naval ships deployed for escort of merchant vessels in the Gulf of Aden."

Denying that the government has plans to sign pacts with neighbouring countries to counter militant activities and check piracy, Antony said, "Nevertheless, the security and surveillance apparatus for coastal defence has been enhanced over the years."

High bunker prices exacerbating shipping industry gloom

Record prices for ship fuel are compounding losses at freight companies already suffering from the worst January on record for transport rates. Prices of bunker fuel averaged \$ 728.18 a tonne in Singapore last month, exceeding the all-time high of July 2008, according to data. Shipping fuel rose 30 per

cent from a year earlier as Russian exports fall, Japanese demand increases and supplies contract in Singapore, the world's biggest bunker port.

Vessel owners are already contending with a glut of ships that sent the Baltic Dry Index down for a 30th straight session last week, capping a 61 per cent decline last month, the most for any January since the Baltic Exchange started publishing figures in 1985. Ship fuel jumped 36 per cent in Singapore last year, more than four times the 8.2 per cent gain for West Texas Intermediate, the US benchmark crude grade, according to data. Prices will average \$ 750 a tonne by 2016, according to a shipping consultant. The price was at \$ 735.5 a tonne in Singapore last week.

Freight

Major Carriers to Raise Rates from India to Africa

Three major container carriers plan to raise rates on shipments from India to ports in East/West Africa, starting April 1. Geneva-based Mediterranean Shipping Company will impose a rate increase of \$200 per 20-foot container on trade from India to East Africa.

Middle East carrier Emirates Shipping Line will also hike

rates on cargo moving from the Indian subcontinent to East Africa by \$200 per TEU.

Infrastructure

Only one-fourth of 587 SEZs operational: Sharma

Among 587 special economic zones (SEZs) approved by the government to boost exports, only 154 of them have become operational, Commerce and Industry Minister Anand Sharma told the Rajya Sabha on Wednesday. During Question Hour, Sharma said that the government had approved 587 SEZs, of which 380 have been notified.

The number of operational SEZs is 154 or 25.43 per cent of the approved special zones. "If there are delays beyond permission, actions are taken," he said adding several requests have been received for denotification of SEZs in view of taxation issues and slowdown in target market

Railways

Railways to approve model concession pact for freight corridor soon

The Indian Railways, having details of the track access charge for the upcoming freight corridor, will approve the model concession agreement soon. "The agreement has already been approved

by the law ministry and the components have been formulated," said an official of the Dedicated Freight Corridor Corporation of India . DFC, a company promoted by the Railways, will earn its share of revenue through the track access charge for the movement of goods through upcoming 3,300 km-long freight corridor.

"The track access charge will be calculated covering construction cost, depreciation cost and operations and maintenance costs," added the official. According to an official of the Railways, DFC has sought 5,000 crore in the upcoming budget to support its various projects. The company has completed 66% of the land acquisition on both sides of the corridor and it expects that the process of land acquisition should be completed by the end of the current year.

Health Tip

The strong scent of Mint has the ability to clear up congestion of the nose, throat, bronchi and lungs which gives relief for respiratory disorders that often result from asthma and the common cold.

Pineapple Juice is 5 times more effective than cough syrup

Pineapple contains bromelain, an enzyme with anti-inflammatory properties. It fights infections and kills bacteria.

The Juice from fresh pineapples can suppress coughs five times more effectively than cough syrup.
